Dear Don Luigi Sturzo,

I am much interested and opposed to Fascism.

Although in political questions I do not probably see eye to eye with you, in this, I presume and believe, we are fully in accord. I should very much like to make your acquaintance personally and talk the matter over with you. I wonder whether, at any not too future date, you could find it convenient to come over here, or you might give me a ring, and we could discuss one or two matters which might be of importance at the present time.

With best wishes,

Sincerely yours,

E. Sylvia Pankhurst

P.S. I only read rapidly a few pages at the British Museum Reading Room of "Italy and Fascismo". I wonder if you could instruct your publishers to send me a copy. I would certainly review it in one of the papers for which I write, although I cannot promise a date. I generally find I am able to incorporate a review of a good book in an article dealing with a similar subject.
