Dear Com.

9. 4. 28.

Eight yrs ago we christened our baby girl "Sylvia" in memory of the efforts You made on behalf of women's emancipation, 14 months later we named our second daughter Rosa in memory of Rosa Luxemburg, but she died when only six weeks old; since then we have had no more & I may add, under present economic conditions, don't want any more. The step You have recently taken will probably arouse the criticism of the Grindy family, but I want You to know, that we, at anyrate, will tell our little girl, when she is old enough; with pleasure, the reason we called her Sylvia. We only have a newspaper cutting photograph of Yourself; if You have a spare original, we should be glad of it. I was a miners' leader, until the lockout settlement, in Durham County, & am now knocking out a living as a builders labourer, until the wheel turns.

In closing I wish you & baby & Father the
best of luck & congratulate you on your
Public annunciation of the truth that
the legal bonds in marriage, as in many
other things, is the least indispensable &
in many cases an unnecessary feature.

Yours Fraternally
Tom Addison.
