Dear Sir,

On behalf of the above Committee I write to ask your signature to the enclosed memorial which it is proposed to issue to the Press of all countries. Since its recent formation, this Committee has been able to secure the publication of the facts concerning the persecution of Mrs. Matteotti and her family in the Press of America, France, Germany, Holland, Spain, Sweden, Austria, Belgium, etc., not only through direct communication with the various newspapers but also by the assistance of the Radio of France, and other news agencies in several countries which have each sent out hundreds of copies of our statement.

The Committee has brought to the notice of the Governments of the World this persecution and proposes shortly to send a delegation of women to Italy to make every effort possible for the welfare of the Matteotti family. Public meetings have already been held in a number of cities in various countries and further efforts must be made in this direction. These great efforts cannot be maintained without funds and the Committee confidently appeals for financial support in its work.

Yours sincerely,

E. Sylvia Parkhurst.
